State of Oregon Fires Dashboard

URL: [State of Oregon Fires Dashboard](#)

Utilizes Esri

LIKES:

- Includes helpful information like: data discovered, percent contained, acres burned, real-time air quality monitoring, evacuation areas
- Includes a current, daily image of the entire state via GOES Satellite

DISLIKES:

- Information could be more up to date
- Could improve basements to better define regions

Washington Wildfire Map

URL: [Washington Wildfire Map - Current Washington Wildfires, Forest Fires, and Lightning Strikes | MAPO LLC](#)

Utilizes a source other than Esri

LIKES:

- Includes information that is nation wide, not just the state of Washington
- Simple and user friendly

DISLIKES:

- Doesn't seem like all sources are properly linked, for example, the current weather was not available
- Only provides fire information, nothing on air quality or evacuation areas

National Interagency Fire Center – Boise, Idaho

URL: [IMSR Map Experience](#)

Utilizes Esri

LIKES:

- Includes information that is nation wide, not just the state of Idaho
- Updated daily, so data is current and reliable

DISLIKES:

- Doesn't seem to include all current/active fires, as only three are displayed
- Appearance is outdated, does not include any additional information beyond incident name, size, and whether or not its contained
